EASY
LED

Welcome to Easy LED, a Finnish company specializing in the design, manufacture and implementation of high-quality LED lighting solutions since 2006. All our products are designed and manufactured in Salo, Finland, and therefore Easy LED has been awarded with 'Key Flag Symbol' as well as the 'Design from Finland' mark. Easy LED is ISO 9001 and ISO 14001 certified. In this brochure, you will find an overview of the reliable, high-performance LED lighting solutions we offer the marine sector.

A SELECTION OF MAJOR PORT REFERENCE PROJECTS:

- Norvik Port, Sweden – new container port for the Stockholm area
- Gothenburg Port, Sweden
- CMP – Copenhagen Malmö Port, Sweden
- Karlskrona Port, Sweden
- Stockholm Port, Sweden
- Helsinki Port, Vuosaari, Finland
- Hanko Port, Finland
- Port of Turku, Finland
- Meyer Shipyard Turku, Finland
- Port of Oulu, Finland

AREA LIGHTING

Our floodlights are designed to illuminate large outdoor spaces, ensuring excellent visibility and safety for work areas. Highly flexible with various installation solutions and optional control systems available. Marine Professional luminaires have a special coating for extra protection.

Warehouses:

Ideal for ceiling/wall mounting in large indoor facilities such as warehouses, fabric buildings or garages. The luminaires are designed for high-quality performance and long life span. Installation is quick and easy, with electricity savings of up to 80% compared with traditional lighting fixtures.

Lights for roads and railways:

These energy-saving and cost-effective luminaires are designed to meet the newest regulations in street and area lighting. The pure Scandinavian design and range of power options make them suitable for all kinds of environments, from streets to parking lots and railroads.

Control systems and accessories:

Easy LED offers a wide range of accessories for your port/marine projects, such as distribution and gear unit cabinets, junction boxes and special cabling. Most accessories are available stainless steel (AISI304) as well as austenitic acid proof stainless steel (AISI 316L).

We also offer wired and wireless control systems that can be precisely tailored to your local needs for maximum convenience of operations and further energy savings.

Some of our products are Z-D4i certified. These smart D4i luminaires are not only controllable remotely, but are also capable of providing data for performance monitoring, asset management, predictive maintenance and many other tasks.

WHY CHOOSE EASY LED?

At Easy LED, we are committed to providing reliable and efficient lighting solutions for ports and other marine environments. With our range of high-quality products, superior performance and exceptional customer service, we are your trusted partner for all your lighting needs. Contact us today to discuss how we can illuminate your port facilities with energy-saving LED lighting optimized for your premises.

1. SUPERIOR QUALITY:

All our products are manufactured in Finland, adhering to the highest quality standards. We use premium-grade materials and cutting-edge LED technology to ensure long-lasting performance and reliability.

2. ENERGY EFFICIENCY:

Our LED lights are designed to be highly energy efficient, helping you reduce your carbon footprint and lower your energy bills. With their low power consumption, and together with our smart control options and optics selection, you can optimize your lighting usage and minimize wastage.

3. DURABILITY:

Easy LED products are built to withstand the harshest conditions. Our lights are resistant to shock, vibration and corrosion, ensuring long-term durability and minimal maintenance requirements. Additional protection for high salinity areas is available by special coatings.

4. CUSTOMIZATION:

We understand that every port facility has unique lighting requirements. That's why we offer customizable lighting solutions to meet your specific needs. Our team of experts will work closely with you to design a lighting system that maximizes energy savings and enhances overall performance.
